

GRADUATE SCHOOL

The Graduate School provides an enriching environment to all research students, and will help you find opportunities to support your academic development. The Dean is Professor Monty Adkins.

RESEARCHER ENVIRONMENT

The Researcher Environment Team organises central training and development for PGRs, bookable on SkillsForge. They also run competitions like 3MT and informal events such as the weekly PGR Catch-ups.

THE STUDENTS' UNION

The Students' Union is a charity based on campus, led by students for students. It is fully independent from the University, which means it focuses wholly on bettering student life for all members - including PGRs!

ACADEMIC ENGLISH CENTRE

The Academic English Centre provides help and support to international (and home) PGRs with academic writing and speaking. Their training courses are bookable on SkillsForge.

REGISTRY

Registry handles queries regarding PGR regulations, including interruptions, extensions, appeals, and complaints. They can also provide information about progression monitoring and your research support plan

WELLBEING AND DISABILITY SERVICES

Wellbeing Services look after your personal wellbeing and mental health, helping you with the demands of your course, stress or anxiety, or relationship struggles.

PGR SCHOOL ADMINS

Your PGR School Admins can help you with queries pertaining to your specific research area. If you have questions about deadlines or School resources, they will be able to help you.
